RED CROSS NOTES

The Red Cross recently ship-
ped the following:

12 Ditty Bags each contain-
ing 1 pair socks, towel, face
cloth, comb, soap, pipe, tobacco,
gum, envelopes, paper and pen-
cil, playing cards, tooth brush,
tooth powder, shaving stick,
small book, 2 handkerchiefs, 1
pound hard candy (butter-
scotch). Housewife containing
complete mending outfit.

George Campbell got a great thrill
out of going along with E. B. Siler on
an antelope hunt to Brooks, a week
or so ago. The bag was two antelope.
Geo. claims E. B. has sure got a
wicked eye along a gunsight. The
antelope, he thinks, are no fools
either. George wants it to be known
that he had no part in the hunting
at all but was just sort of a liason
officer between E. B. and the ante-
lope.

Re 60 Below
Anti Freeze

An attempt is being made
locally to discredit this anti-
freeze as harmful to motors and
wiring. It should be noted
that 60 Below is fully guaran-
teed and is backed by one of
the largest Canadian Corpora-
tions. 60 below has been suc-
cessfully used for the past three
years in motor cars in the
United States and has been
proven non-injurious by actual
continual test.

The fact that this anti-freeze
is the only permanent anti-
freeze on the market to-day
and is obtainable in this district
only through Farmer's Hard-
ware has led to attempts to dis-
credit it.

Don't be misled by unfound-
ed and unproven criticism of a

Municipal Council Meeting Minutes

The regular monthly meeting
of the council of the Municipal
District of Harmony No. 128
was held on Tuesday, Novem-
ber 10th.

A brief report of the Tax Sale
on October 15th, 1942 was given
by the secretary and Councillor
Ellis moved that this be adopt-
ed as satisfactory. Carried.

Reg. Sansome interviewed
the council re delinquent taxes
on the N. W. 35-15-24-4. This
was discussed by all the council-
lors present, Reeve Griffin final-
ly asking Mr. Sansome if he
would call back later and he
would report the councillors
decision. Moved by Councillor
Hagerman that the council re-
quest that sum of \$50.00 be paid
on the above mentioned taxes
before the 15th of December;
after which 50 per cent of the
balance of the wheat grown in
1942 on above land be turned
over or taxes to the M. D. of
Harmony as quotas permit.
Carried.

Albert Brett also interviewed
the council in respect to de-
linquent taxes, and after a
certain amount of discussion it
was decided by the council that
he leave the matter until some
wheat could be sold.

Councillor Ellis moved that
the matter of pension be adopt-
ed in full as Mr. Versluis has
now disposed of his property.
This has been reported to the
office and the council feel that
he should now be entitled to
the full pension. Carried.

Councillor Hagerman moved
that the M. D. of Harmony ap-
prove of the transfer of land,
insofar as it effects the Old
Blackfoot Trail in township 14-
24-4. Carried.

It was moved by Councillor
Ellis that the Municipal District
of Harmony buy a bond in the
present Victory Loan to an
amount of \$2000.00. Carried.

Communication was read
from the Calgary Power Co. re
the power line adjoining the
south boundary of section 1-15-
24-W4. Reeve Griffin explained
to the council as to his conver-
sation on the telephone. It
was finally decided to let the
matter wait for awhile and see
what resulted from it. Carried.

MR. ABERHART, THE SOLDIERS' FRIEND

We listened the other evening to Mr. Aberhart's radio address in which he outlined his proposals for the post-war assistance of those who have been members of armed forces.

In the past we have sometimes wondered whether the fact of our being on the other side of the political fence had anything to do with our doubting the sincerity of many of Mr. Aberhart's utterances. After listening to this address we no longer doubt his sincerity—we most earnestly disbelieve it.

In the game of politics there are many recognized means and methods of making political capital for your own ends. In our democratic system we accept certain of these as honorable and legitimate. However, even

in the game of politics, there are certain limits of decency and honor beyond which the reputable politician does not care to go.

To make political capital out of the feelings of those who have brothers, husbands, sons or daughters fighting in this war is stretching the veil of political honor rather thin. The feelings, the full hearts, the wondering if their loved ones will ever return, are sacred things to these people and to all of us, just as much as the sacrifice the soldiers are making are sacred to us, and are not to be bandied about or played upon by any politician as a means of securing political support.

Those who are fighting in this war are fighting for a new world, an ideal. Those who are sacrificing their loved ones are doing so with the belief they are making a sacrifice for a better world. You do not measure these things in dollars and cents. You do not offer these men three years free living after the war, for they are going to be too busy seeing that what they fought for is brought about. Nor do you try to catch votes by offering them such things.

We like to think, and, by God, we believe we are right in thinking, that these men in battledress are going into the hell of battle with the fire of freedom's fight in their eyes and hearts and not the thought that if and

TWO YOUNG MEN

with faith in themselves

BEFORE the war, two young graduates in chemistry faced the future with no assets but technical training and unbounded faith in themselves. They planned to capitalize on their years in college by manufacturing a certain chemical product. "But we'll need some money to get started," they said. "Let's put it up to the bank."

Their banker decided that their faith was well founded in character, ability, energy. "We'll finance you to start in a small way," he said. "Make a test on the local market first."

Presently the product was being sold all over Canada and exported to the United States and overseas. Now it fills a wartime demand. The enterprise employs a large number of people.

This actual example illustrates how this country's Chartered Banks help credit-worthy people to benefit themselves, their fellows and their country under the democratic system of free enterprise.

Banks, like any other business, exist because they provide service which a community needs and is willing to pay for at a rate which will yield a reasonable profit. Chartered Bank profits average less than one-half of one per cent a year on total assets. Few, if any, other businesses operate on as small a margin.

A Veteran at 20!

Back from scores of bombing raids over a dozen countries, this young airman has found adventure in the skies! Just out of his 'teens, an eager youth in years, he's a veteran in experience. He's a first-line fighting man, trained in the science of war at 5-miles-a-minute!

He and his buddies in R.C.A.F. air crew are team-mates. Gunner, Wireless Operator, Bomber, Pilot, Navigator—all work together as a smooth, swift "attack team" in a giant bomber. Their targets accurately surveyed in advance by daring reconnaissance pilots—their flight protected by the blazing guns of fighter planes—the bombers wing their relentless way to smash Nazi nerve-centres.

The expanded Air Training Plan has room for more men who want to be with these fighting comrades of the skies. Right now applications are being accepted for air crew duty, at R.C.A.F. Recruiting Centres throughout Canada.

If you are physically fit, mentally alert, over 17½ and not yet 33, you are eligible. If you are over 33, but have exceptional qualifications, you may still be considered. Lack of formal education is no longer a bar to enlistment.

WOMEN TOO— join "that men may fly." Canadian women fill vital jobs in the R.C.A.F. Women's Division, releasing men for air crew duties. Recruits are needed, age 18 to 40, physically fit, with at least High School entrance. Many useful and fascinating jobs await you. No experience needed. The Air Force will train you quickly to take your place with Canada's airwomen. Full information at any R.C.A.F. Recruiting Centre, or write address below for booklet.

when they come back Mr. Aberhart will give them three years free living if they are wise enough to vote him into the Federal house. For it is apparent that Mr. Aberhart's attempt to soften up the soldier vote is the prelude to an adventure into Dominion politics.

There is not one of us anywhere who does not wish these fighting men of ours to have everything it is in the power of a grateful people to give them. They are earning it and deserve it. But we believe it is these fighting men themselves who are going to decide these things when they come back. They are fighting for a new world and they are going to see that they get it. And somehow or other we do not think they will select Mr. Aberhart or his party as their leaders, no matter what proposals he puts forward to woo them to him.

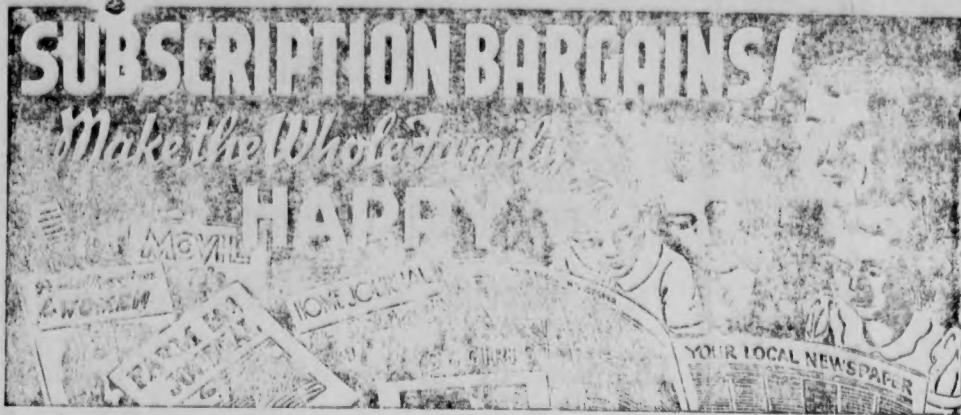

GOODBY TO HARMONY?

Last Friday the Hon. Peter Dawson outlined the Government's proposal to do away with the Municipal District of Harmony and incorporate it in an enlarged district along with parts of three other Municipal Districts.

In making a survey of public opinion in this district with regards this proposed move it is evident that opinion is almost unanimous against it. Most farmers of this district take it as a personal calamity that such a thing should be allowed to happen to their well managed municipality. They see not only a diminishing of their representation in municipal affairs, but also the spectre of increased taxation confronting them.

When asked what steps they proposed taking to prevent or stave off this impending disaster, the answer invariably was that "there isn't anything we can do about it." We would like to point out to the faint hearted that no campaign is lost till the last battle has been fought. There are always ways and means and a trick or two that often make the best laid plans go awry. But it takes more than wishing. If the taxpayers want to do anything about it we will back them up with an idea or two. But they will have to be prepared to take up arms in their own defence and not "let George do it."

And now, "Praise the Lord and pass the ammunition."

HIGH SCHOOL NOTES

If needed an experienced war time mechanic, call on J. L. npr. You'll find a surplus of screws from your gramophone as we did from our Victor, P.S. It runs.

A dark mysterious man was seen flitting at the door of the Junior High room. We do not know his intentions, but hope they were not evil. Result—excessive chewing of grape gum by Junior High teacher.

Physies II girls are still debating what makes the wheels go round on a car. Beware, if you find your jalopy dissected you'll know who's responsible.

An interesting program was held last Friday by Ija's group. Rev. Andrew Farmer proved to be quite an orator.

Wanted—Someone to clean floors so Miss McVeety can demonstrate to the students how to "fall." We wish her success.

Famous paintings will soon be on display by Art II Society. Credit should be given not only to the five professionals but also to the professeur.

Sam Schaureman has been found tongue-tied in French as far as "sleepy" is concerned.

The school was almost in despair when Buddy Weiss, the Minister Without Portfolio, resigned to take up a higher position of learning the hunt and peck system at Hender-son's.

The executive of the Students Parliament had quite a tete-a-tete in regards to the forth-coming High School party which will be held December 22. The ex-high are cordially invited.

PICKERSGILL TO OTTAWA

It is with mixed feelings that we part company with Mr. T. B. Pickersgill until the war is over. It is very gratifying to us that the Assistant Director of this Department should be selected for a position of such importance and responsibility; but some phases of our own work will necessarily be curtailed.

Mr. Pickersgill's task is connected with National Selective Service as it affects agriculture, particularly in the prairie provinces. The production of beef, pork and dairy products requires more manpower per acre than does grain production, and we are already faced with a serious shortage of farm labour. It will be difficult to maintain present production, let alone increase it, without either increasing the supply of farm labour or distributing it more efficiently.

We are being asked for still more butter, cheese, eggs, bacon and beef. The armed forces are daily calling for more men. Many readers will be surprised to learn that the average age of farm owners and operators in Saskatchewan is 52 years. This means, of course, that many are over 60 and some over 70. They cannot release their sons and daughters and hired help to the armed forces, and then increase their farm livestock.

Never before have we had such an abundance of feed. Nothing stands in the way of tremendous increases in livestock except labour. It is with this problem that Mr. Pickersgill will be expected to cope. His many farmer friends will miss him at the class B fairs and elsewhere, and will look forward to his return.

Weddings

SCOTT-VANNATTA

A quiet wedding was performed in Lethbridge on Tuesday, November 10, when Caroline, daughter of Mr. and Mrs. Elmer Vannatta, of Milo, and Walter Scott of Champion, son of Jack Scott of Winnipeg, were united in marriage by the Rev. Harry Mutchmore.

For her marriage the bride wore a blue ensemble and carried a bouquet of pink roses. Mrs. R. H. Scott, who acted as bridesmaid chose for the occasion a blue ensemble. Her bouquet was of pink carnations. R. H. Scott attended the groom.

Guests attending the wedding included, besides the brides parents, her great grandmother, Mrs. Robertson, of Lethbridge, who observed her eightieth birthday on the day of the wedding, and Mr. and Mrs. R. H. Wellman, of Milo.

The young couple will reside in the Champion district, after a short honeymoon spent in Calgary.

One of the R. C. A. F. planes from Claresholm forced down Saturday by a broken propeller on the Guess Ranch was a source of great interest to the neighborhood, being entertaining as well as educational. Educational in that "we the people" saw that the army are not slow in starting their investigations and that they do not leave a chip unturned, especially if it is a hickory chip. Another thing we learned is that army men are more civil than most civilians and a very noticeable thing about them was their determination to leave everything as they found it, and they did, with one exception and that was our regard and respect for them, which was high before but now it is A. I. plus. Are not such men worth saving for?
